

# Video Call

SIP video phone is available by P2P using H.263 or H.264.  
 P2P for IP extension to SIP trunk is also supported.  
 (But Panasonic HD-VC cannot be SIP extension of KX-NS PBX.)

< P2P >

IP Phone Type	IP Ext to IP Ext	SIP Trunk to IP Ext (*1)
KX-NT300 series	Yes	No
KX-NT543/546/560	Yes	Yes (*2)
KX-NT550 series	Yes	Yes
KX-UT series	Yes	Yes
3rd party SIP phone	Yes	Yes

\*1) Depend on specification of SIP provider, this feature does not work.

\*2) Software version up of NT500 is required.

# Note

Some SIP video phone has 2 methods to start video transmission by programming.

Type 1 : Video transmission starts automatically when talking starts.

Type 2 : Video transmission starts manually by preference of user after talking starts.

KX-NS PBX and KX-TDE/NCP supports only type 1.
